PROJECTS

LIBIAM | Front-end Engineer - Team Project

Los Angeles, CA | 11.2021 - 02.2022

- Collaborated with AI modelers and designers to create a minimum viable product using React.
- Optimized form control with reusable custom hooks and state-management using react context.
- Constructed http-hook to reach the backend endpoint and receive REST API responses.

Foodies | Full Stack - Independent Project

Los Angeles, CA | 09.2021 - 12.2021

- Used React to build a single page application, optimized browser load time by code splitting.
- Created REST api using node.js and express to build backend endpoints in MVC framework,
- Used MongoDB and AWS s3 to store datas, and Google Geocoding API for locating addresses.

justin-jang.com | Full Stack - Independent Project

Los Angeles, CA | 08.2021 - 09.2021

- Created a portfolio website using react.js to store projects that I have worked on.
- Published website through gh-pages with interactive elements using formsubmit.com.
- Designed a single page scroll website using styled-components and react-scroll.

EXPERIENCE

USC Shoah Foundation | Graphic Design Intern

Los Angeles, CA | 06.2019 - 12.2019

- Designed UI elements in the multimedia page of the new Shoah Foundation homepage.
- Created client posters, project brochures, and template handouts using Adobe InDesign.
- Co-operated directly with content specialists to discuss content design and user experience.

AWARDS

SoCal K-Group Hackathon | Gold-Coin

Los Angeles, CA | 11.2021

- Won Gold-Coin in the SoCal K-Group Hackathon, sponsored by the Consulate General of South Korea, Los Angeles. Participated as a front-end engineer.
